

Black Radish and Parsley (Item # 4011)

Clears the Body's Fluid Pathways

Black radish and parsley have been traditionally used by European herbalists for removal of mucus from the kidneys, bladder, and liver. It aids in cleansing the passageways of the body, especially the fluid channels of the urinary system. Parsley is known for its ability to expel worms, relieve gas, stimulate digestion, and its ability to freshen breath.

Black Radish and Parsley is an herbal combination formulated to cut and eliminate mucous and toxins from the urinary and digestive systems. Bladder infections and kidney infections are often caused by excess white sugar, meat and animal foods in the diet. This combination aids the urinary tract and other fluid pathways in the breakdown and elimination of these muco-proteins and fats.

Dosage Take 1 vegi-capsule 3 times daily or as directed by a qualified health professional.

Ingredients Explained

Russian Black Radish - Promotes a healthy respiratory system; activates the liver cells; maintains a healthy gallbladder; stimulates bile flow; helps clear up acne and eczema; treats gallbladder gravel and suppresses coughing. Culpeper says of black radishes that, "They encourage the flow of urine and are good for stones and gravel. ... The ability to eliminate and cut mucous and toxins from the fluid pathways of the body is the primary function of Black Radish in this formulation. The root is rich in vitamin C and has documented antiviral activity against influenza. Additionally, black radish juice is recommended to treat cough and to fortify and tone the body. Some Doctors recommend black radishes for treating Graves' disease and hypothyroidism. Russian researchers have identified a compound called raphanin in radishes that helps keep levels of thyroid hormones in balance when it is found circulating in the blood. Radishes also have an antibacterial effect and help to eliminate pathogens within the digestive tract.

Parsley – Parsley Root has been used medicinally since ancient times to assist digestive disorders, bronchitis, and urinary tract issues. As far back as Hippocrates parsley was used in medicinal recipes as a cure-all, general tonics, poison antidotes, anti-rheumatics and formulas to relieve **kidney and bladder stones**. The volatile oil increases circulation to the digestive tract and urinary system. In Russia, a preparation containing mostly Parsley juice is given during labor to stimulate uterine contractions. The juice has been used to treat toothache, and as a hair rinse or as a facial steam for dry skin. Other uses for Parsley Root have been to tone the urinary tract reducing the possibility of infections, alleviate painful menstruation, lowering blood pressure and improving asthma, allergies and bronchitis by drying excessive mucous. Modern science has confirmed many of these claims. Parsley is rich in vitamins and minerals, particularly vitamins A and C, and compounds that clear toxins from the body. It also reduces inflammations, contains histamine inhibitors and is a free radical scavenger. Commercially, oil from the seeds is used to scent Oriental style perfumes and colognes. Because of the high chlorophyll content, it acts as a great breath freshener. Scientists have even isolated a compound, apiol. Apiol is now used in medications to treat kidney ailments and kidney stones.
