

Kidney Tonic (Item # 4014)

Herbal Support for Sluggish Kidney Function

Kidney Tonic includes traditional Chinese and Western herbs combined in a ratio that support kidney function. This formula is designed to strengthen and balance the kidney energy – it is important to know that this is not a diuretic. Most herbal formulations for the kidneys typically have a diuretic effect. Kidney Tonic is different in that it actually promotes healthy kidney function while soothing and strengthening the organ. Using diuretics when the kidneys are stressed may result in weakened kidney function.

Traditional Chinese doctors refer to the Kidneys as ‘The Seat of Life’ and ‘The Source of all Sexual Energy.’ Those who suffer from weak libido may be wise to strengthen and heal their kidney function before taking drugs to force the body into sexual performance. Universal Formulas’ product ‘Virility’ (product#4050) used in conjunction with Kidney Tonic builds sexual energy and performance without the side effects of drugs.

Dosage: Take 1 vegi-capsule 3 times daily or as directed by a qualified health professional. May be taken with or without food.

Ingredients Explained

Wild Yam Root - Wild Yam may be used to help relieve nausea, intestinal colic, inflammation, spasm, rheumatoid arthritis, gallbladder colic and ulcerative colitis. Wild Yam produces sweat, and stimulates the flow of bile in the small intestine.

Rhemmania Glutinosa - Rehmannia's root is used medicinally to replenish vitality, to strengthen the liver, kidney and heart and for treatment of a variety of ailments such as diabetes, constipation, anemia, urinary tract problems, dizziness and regulation of menstrual flow.

Its astringent compounds halt bleeding of ulcers and reduces inflammation of the digestive system. Other compounds work to reduce capillary fragility and supports Liver and adrenal glands function. Rhemmania tones the blood and helps with deficiencies, working as a blood tonic.

Uva Ursi - Uva ursi is used to treat urinary tract infections, cystitis (bladder inflammation), and kidney stones. Arbutin (a hydroquinone derivative), is the chief active compound in uva ursi. It is absorbed in the stomach and converts into a substance with antimicrobial, astringent, and disinfectant properties. During urination, as it passes out of the body, acting on the mucus membranes of the urinary tract to soothe irritation, reduce inflammation, and fight infection.

Yarrow - Yarrow can be of benefit in mild cystitis. Used internally it aids in gastric and digestive distress. It acts as an agent which helps alleviate lung hemorrhage, kidney hemorrhage and relieve excessive menstrual flow. It promotes digestion and improves circulation by acting as a vasodilator. Yarrow is very good for many kidney disorders.

Shepards Purse – Shepherd's purse is listed as an astringent. It causes tissue contraction thereby reducing bleeding in general such as from external scratches and nosebleeds to internal hemorrhages. It helps ease diarrhea (an astringent tightens loose bowels), and acts as a mild diuretic for kidney disease.

It is a remedy of first importance in catarrhal (inflammation of a mucous membrane) conditions of the bladder, uterus, and ulcerated conditions. It increases the flow of urine. Its use is specially indicated when there is white mucous matter excreted with the urine; relief in these cases is immediate. Its antiscorbutic, stimulant and diuretic action causes it to be much used in kidney complaints and dropsy (excess accumulation of serous fluid in connective tissue).

White Peony Root – Peony root is famous and a highly prized blood tonic used to relax muscle and cleanse the blood. It is a highly prized women's herb traditionally used to help regulate the female hormonal cycle and to tone and purify the blood. It is also used as a pain reducing agent and as an emotional stabilizer. It is said to relieve cramps and spasms anywhere in the body. In particular, it is considered to be highly effective in relieving menstrual cramps. Peony root is also believed to extend life and to promote beauty.

Plantain Leaves - Plantain leaf has a long history of traditional use medicinally, dating to ancient Roman and Greek times. Some traditional uses of plantain leaf are as an astringent, a demulcent and a mild diuretic. Decoctions of Plantain Leaves were often used for kidney disorders. The powdered roots were often used for complaints of the bowels. The expressed juice was recommended for relieving spitting-up of blood and piles.
